

arboricola

Choose from green to yellow or white variegated varieties.

Grow as a bonsai plant if desired.

Place in bright, indirect light.
Tolerates medium light.

Arboricola are heavy feeders. Fertilize once per week with an all-purpose fertilizer during active growth, monthly during fall and winter.

Plant in an all-purpose potting soil.

Prune regularly to keep shapely and to encourage compact growth. Rotate your plant to promote even growth.

Water when soil is half-way dry. Increase watering during warmer months; decrease in the fall and winter. Arboricola are forgiving if watering is missed.
