

# cast iron plant

The Cast Iron plant has earned its namesake as a nearly indestructible houseplant.

---

Place in bright indirect light. This plant also tolerates low light conditions.

Fertilize every 2 weeks during active growth. Cut fertilizer strength and frequency in half October - March.

Plant in an all-purpose potting soil.

Cast Iron plants are safe for pets.

This plant is drought tolerant. Allow to dry out in between waterings. Larger plants may need irrigation only 1-2 times per month.
