

maranta

Maranta gets its common name, Prayer Plant because they close their leaves like praying hands at night.

Place in bright, indirect to medium light. Avoid direct sunlight.

Feed every two weeks with an all-purpose fertilizer during the growing season; April through October.

Plant in an all-purpose potting soil, or up your game with a maranta specific mix made up of 2 parts peat moss or coco coir, 1 part all-purpose potting mix, 1 part perlite, and 1/2 part charcoal.

Prayer plants are members of the Maranta plant family and are pet friendly.

Keep soil evenly moist, but not saturated. Never allow to sit in standing water.
