

pilea peperomiodes

Pilea peperomioides has many common name such as money plant, pancake plant, and friendship plant to name a few.

Place in bright, indirect to medium light.

Fertilize every 2 weeks during active growth. Cut fertilizer strength and frequency in half October - March.

Plant in an all-purpose potting soil.

Pilea Peperomioides are easy to propagate so give and gift them to the ones you love!

Water when the top 2-3 inches of soil are dry. Cut back on watering in the winter to avoid root rot. Do not allow to completely dry out.
