

stromanthe

Stromanthe are known for their striking color. Part of the prayer plant family, this plant also lifts and lowers its leaves throughout the day.

Place in bright, indirect to medium light.

Plant in an all-purpose potting soil, or up your game with a maranta specific mix made up of 2 parts peat moss or coco coir, 1 part all-purpose potting mix, 1 part perlite, and 1/2 part charcoal.

Keep soil evenly moist, but not saturated. Never allow to sit in standing water.

Feed every two weeks with an all-purpose fertilizer during the growing season; April through October.

The most popular Stromanthe is called Trio-Star and is cherished for its pink, white, and green leaves.
