

waffle plant

This plant boasts a crinkly purple and green leaf that resembles a waffle!

Place in bright, indirect to medium light.

Fertilize every 2 weeks during active growth. Cut fertilizer strength and frequency in half October - March.

Plant in an all-purpose potting soil.

Waffle plants are gorgeous in a hanging basket, perfect for a summer patio. Waffle Plant or Hemigraphis are related to Hypoestes and Fittonia.

Water when the top 2-3 inches of soil are dry. Cut back on watering in the winter to avoid root rot. Do not allow to completely dry out.
